

Senior Software Engineer - Cloud Infrastructure

TechNova Solutions

TechNova Solutions is seeking a talented Senior Software Engineer to join our Cloud Infrastructure team. The ideal candidate will have extensive experience in designing, implementing, and maintaining large-scale distributed systems.

Responsibilities:

- Design and implement scalable, high-performance cloud-based solutions
- Lead technical projects and mentor junior team members
- Collaborate with cross-functional teams to define and implement new features
- Optimize existing systems for performance, scalability, and reliability
- Participate in code reviews and contribute to best practices

Requirements:

- 5+ years of experience in software development
- Strong proficiency in Java, Python, or Go
- Experience with cloud platforms (AWS, GCP, or Azure)
- Knowledge of containerization and orchestration (Docker, Kubernetes)
- Familiarity with CI/CD pipelines and DevOps practices
- Excellent problem-solving and communication skills

We offer competitive salary, comprehensive benefits, and opportunities for professional growth.
